EVICTIION NOTICE

**We regret to inform you that your suite is scheduled for
demolition in the next three days.**

If you do not leave within the next three days, we reserve the right to destroy your suite. Anyone left inside is outside our responsibility. This may seem like harsh treatment, but, it really, 24,813 houses have been demolished by the Israeli Defense Forces in the West Bank, East Jerusalem and Gaza since 1967, against international law and without proper justification. House demolitions are one of many forms of collective punishment used by the Israeli Defense Forces. Surprised? Find out more at www.humanrights.org/alerts, like it's not a real eviction notice.
